

A complete drawer system for modern furniture applications.

The Integra system offers outstanding quality and maximum utilization of cabinet space.

The Integra steel drawer system offers furniture manufacturers a wide variety of possibilities for design and application in modern kitchens and bathrooms.

Integra, excellent in quality, perfect in function and design, also offers the end user a maximum of practical application possibilities.

Standard drawers, pull-out shelves internal drawers, full extension drawers with rails, hanging file frame drawers are available for different furniture applications.

Proven technology and outstanding quality.

The important advantage of Integra **full extension**: The full extension drawer runner with 15 mm over-extension provides for easy access and maximum depths utilization of drawer without interference of the front drawer profile or the kitchen counter. The picture shows the full extension runner with a drawer side of 85 mm height. Drawers with side heights of 117 and 149 mm can also be equipped with the full extension runner. Full extension and single extension runners are still both fully compatible within the 32 mm system.

Integra 53

The shallow drawers are preferably used as oven and base drawers. Drawer side height 53 mm, carrying capacity 30 kg, self-closing. Available in lengths of 350 – 550 mm

Integra 85

The standard drawer has the ideal height for universal use in kitchen and bathroom. Drawer side height 85 mm, carrying capacity 30 kg, self-closing. Available in lengths of 275 – 550 mm

Integra 117

This medium drawer is perfect for applications where more storage space is needed. Drawer side height 117 mm, carrying capacity 30 kg, self-closing. Available in lengths of 350 – 550 mm

Integra 149

This high drawer offers enough space for big and bulky items which need strong side support. Drawer side height 149 mm, carrying capacity 30 kg, self-closing. Available in lengths of 350 – 550 mm

The single-wall Integra steel drawer system offers furniture manufacturers a wide variety of design and application possibilities in modern kitchens and bathrooms.
