

Alles im Griff:
Metall- und Kunststoffgriffe

Everything at hand:
Metal- and plastic handles

Alles im Griff mit den Metall- und Kunststoffgriffen von Fennel!

Fennel's metal- and plastic handles will help you achieve a strong hold!

Greifen ist ein wichtiger Bestandteil unseres täglichen Lebens. Deshalb sollte bei allem, was "begreifbar" ist, Form und Funktion in harmonischem Einklang stehen.

Ganz in diesem Sinne werden die Metall- und Kunststoffgriffe von Fennel unter Berücksichtigung von Design, Ergonomie und Qualität entwickelt und gefertigt. Die umfangreiche Produktpalette bietet ein breites Spektrum individueller Lösungen für nahezu jeden Einsatzbereich.

Überzeugen Sie sich selbst anhand der nachfolgenden Artikelübersicht!

It may seem like an obvious thing to say, but our hands are designed to "handle" things. That is why it is vital that products in this sector strike the perfect balance between form and function.

It is precisely in accordance with this maxim that Fennel's metal and plastic handles are designed and manufactured, taking into account aspects of design, ergonomics and quality. The company's extensive product portfolio features a wide range of tailor-made solutions for virtually any area of application.

Find out more for yourself by taking a look at the following product overview.

Artikelübersicht mit Zeichnung

In der nachfolgenden Artikelübersicht können Sie sich ein Bild von unserem kompletten Griffprogramm machen. Sie finden neben einem Produktfoto Angaben über die Materialien und die wichtigsten Informationen im Überblick: Die maximale Höhe (A), die maximale Länge (B) und die lieferbaren Bohrabstände (C). Darüber hinaus werden die Oberflächenvarianten sowie die Besonderheiten des Griffes genannt – einfach und übersichtlich.

Article Index and Drawing

The following product summary provides an impression of our complete range of handles. The product photograph is accompanied by information on the materials and the most important figures: maximum height (A), maximum length (B) and available hole distances (C). The various surface finishes and special features concerning the handle are also specified – simply and clearly.

Das Metallgriff-Sortiment. Metal range of handles and knobs

Edles Material in designorientierter Optik

Klare Konturen und weiche Linien, edle Matt-effekte, hochglänzende Oberflächen und antike Optik – das Fennel-Metall-Griffprogramm eröffnet ungezählte Gestaltungsmöglichkeiten. Von modernen designorientierten Lösungen aus Metall, Aluminium und hochwertigen Material-mix-Varianten alles was im Möbelbereich, der Caravanindustrie und im Innenausbau gesucht und gefordert wird. Metallgriffe aus modernster

Serienfertigung überzeugen neben dem hohen Qualitätsstandard durch ihre günstige Preisgestaltung. Lackierung, Pulverbeschichtung, Galvanik, Antikeffekte und eloxierte Oberflächen bei Aluminium sind täglicher Standard und Kernkompetenzen bei Fennel. Beachten Sie unser umfangreiches Angebot an „Grifffamilien“. Abgestimmtes Design ermöglichen eine einheitliche Frontoptik von der Schublade bis zur Hochschranktür. So bleibt viel Spielraum für neue Ideen und individuelle Entwicklungen. Unsere Mitarbeiter beraten Sie gerne.

Precious material with a design-oriented look

Clear contours and soft lines, classic matt effects, glossy surfaces and antique finishes – the Fennel metal handle range provides countless design opportunities. From modern design solutions produced from metal or aluminium to high-quality material combinations, the range offers everything needed and required in the furniture sector, the caravan industry and interior construction. Metal handles manufactured on state-of-the-art machinery are superior due to their high quality and competitive pricing. Lacquering, powder coating, electroplating, antique effects and anodised surfaces in aluminium are all in our standard manufacturing range and a core competence at Fennel. Please take note of our extensive range of „handle families“. The fronts of drawers to tall cupboard doors can be furnished with a consistent look through matching designs. Thus there is plenty of scope for new ideas and exclusive developments. Our staff will be happy to advise you.

Bügelgriffe

» 6

Die Familie der Bügelgriffe zeichnet sich durch ihre besondere Grifffreundlichkeit und den hohen Anwendungskomfort aus. Metallgriffe aus Zamak und Aluminium erlauben unterschiedlichste Oberflächenausführungen und Materialkombinationen.

D-Handles

The D handle family is identified by their excellent ergonomic qualities. Metal handles made of „zamak“ (zinc alloy) and aluminium allow various surface structure and material combinations.

Landhausgriffe

» 28

Landhausgriffen – schon lange bei Fennel im Programm – widmen wir in diesem Katalog ein eigenes Kapitel. Dieses traditionelle Design – ob als Griff, Knopf oder Bügelgriff – war, und ist immer aktuell. Edles Material, Kombinationsmöglichkeiten und den überlieferten Vorgaben genau angepasste hochwertige Oberflächen geben dieser Programmreihe ihr ganz eigenes Flair.

Country cottage handles

In this catalogue we have devoted a separate section to country cottage handles that have belonged to the Fennel range for a long time. The traditional designs – whether handle, knob or D handle – were and are always up-to-date. Classic materials, combination options and high-quality surfaces exactly adapted to the traditional specifications give this range its very own flair.

Relinggriffe

» 32

Der Begriff Relinggriff ist so vielseitig wie seine Varianten und Gestaltungsmöglichkeiten. Eine perfekte Synthese von Materialien, Formen und Oberflächen zeichnen die aus Einzelkomponenten kombinierbaren Gestaltungselemente aus. Der Begriff Relinggriffe wird bei Fennel erweitert auf längenvariable Griffleisten – aufgesetzte Schalengriffe und aus mehreren Elementen bestehende Bügelgriffe.

Bar and rail handles

The term railing handle is as versatile as its variants and design possibilities. The design elements that can be combined from individual components are marked out by a perfect synthesis of materials, shapes and surfaces. At Fennel, the term railing handle is extended to handle profiles of variable length, attached shell handles and D handles consisting of several elements.

Muschel- und Schalengriffe

» 44

Muschel- und Schalengriffe finden ihren Einsatz besonders in Bereichen in denen die Kombination von praktischer Grifffreundlichkeit gepaart mit ansprechendem Design gefordert sind. Die eingelassene Muschel vermittelt Griffkomfort bei fast glatter Frontoptik. Schalen sind optisch ansprechend, gut zu greifen und oft mit anderen Gestaltungselementen, kombinierbar.

Shell handles

Shell handles are used particularly in areas where the combination of practical gripping qualities and an attractive design is required. The countersunk shells allow easy gripping with virtually smooth front appearances. Shells are attractive, easy to grip and can often be combined with other design elements, e.g. top trims.

Griffe und Knöpfe

» 47

Es sind oft kleine Details die einer Front oder einem Frontteil „das Gesicht“ geben. Die Designvielfalt von Griffen und Knöpfen ist so groß wie ihre Einsatzmöglichkeit. Wo auf dezentes Greifen Wert gelegt wird sind diese kleinen Schmuckstücke unentbehrlich. Die Kombinationsmöglichkeiten schätzt jeder Möbeldesigner.

Kunststoffgriffe-Sortiment

» 52

Handles and Knobs

Often it is the little details that “put a different complexion” on a front or frontal component. The handle and knob design variations are as great as their range of applications. These little ornaments are indispensable wherever subtle gripping is of importance. The combination options are valued by every furniture designer.

Das Kunststoffgriff-Sortiment. Plastic range of handles and knobs.

Design für Möbel

Designorientierte Griffe und Griffelemente bestimmen oft das optische Bild einer Möbelfront oder einzelner Elemente. Grifffreundlichkeit und eine hohe technische Qualität sind bei Fennel Standard. Hochwertige Kunststoffe, perfekte Werkzeugformen und optisch wie qualitativ einwandfreie Oberflächenfinish sind die Basis für anspruchsvolle serienfähige Ausführungen.

Bei mehrteiligen Griffen besteht die Möglichkeit, die verschiedenen Oberflächen und Materialien zu kombinieren, um Ihrem Möbel die gewünschte individuelle Note zu verleihen.

Um das Griffelement entweder harmonisch an den Holzfarbton des Möbels anzupassen oder einen farblichen Kontrast zu erzielen, bieten wir aktuelle Farben und Oberflächen an. Zur Auswahl stehen uni, lackiert, galvanisiert, bedruckt, geprägt und bedampft.

Den natürlichen Holzoberflächen oder Holzreproduktionen genau angepasste Farben und Strukturen runden die Palette ab. Sonderfarben, spezielle Oberflächen oder zusätzliche Schutzlackierungen sind nach Abstimmung möglich.

Design for furniture

Design-driven handles and handle elements often add that finishing touch to a piece of furniture or individual elements. Handles from Fennel are user-friendly and of high technical quality. Top-grade plastics, perfect tool dies, and surface finishes, which leave nothing to be desired, create high-grade fabrications.

A variety of materials and surface finishes can be combined in multi-part handles to give your furniture the distinctive character desired. We offer a choice of handles in popular colours and surfaces to harmonise and/or accent the colour of the furniture's wood. Choice varies from plain coloured, lacquered, electro-plated, printed, transfer foiled and vacuum-plated finishes.

This range consists of colours and wood-grains that exactly match natural wood surfaces or wood reproductions. Handles can also be produced in special colours and finishes or with additional protective coatings.

Bügelgriffe

» 54

Bügelgriffe sind die „Klassiker“ der Möbeldesign. Unsere vielseitigen Bügelgriff-Familien bieten für alle Anwendungsbereiche im Möbel- und Innenausbau designorientierte Gestaltungsmöglichkeiten.

D-Handles

D-handles are looked upon as the “classics” in furniture design. Our versatile D-handle collection provides opportunities for design-driven ideas on all furniture applications and interiors.

Relinggriffe

» 73

Relinggriffe bestechen durch ihre klare Linieneinführung und die Vielfältigkeit ihrer Einsatzmöglichkeiten. Besonders bei großformatigen Frontteilen haben sich Relinggriffe durch ihr praktisches Handling als optisch dominierende Gestaltungselemente bewährt.

Bar and rail handles

Distinct lines and a variety of applications are the impressive features of bar and rail handles. Their dominating presence and easy handling on large-area front panels have proven to be notably practical.

Muschel- und Schalengriffe

» 75

Muschel- und Schalengriffe setzen mit ihrer zeitgemäßen Optik wirkungsvolle Akzente. Ob eingefräste oder aufgeschraubte Varianten – die ein- und mehrteiligen Griffe sind für alle Bereiche, besonders aber im Küchen- und Kleinmöbelbereich sowie für Caravanmöbel geeignet.

Shell handles

The up-to-the-minute appearance of shell handles and cup handles make a fine impression emphasis, both milled or screwed. These single-part and multi-part handles are suitable for all applications, particularly on kitchen furniture and hall furniture, as well as in caravans.

Griffe und Knöpfe

» 78

Besonders vielseitig ist die Produktgruppe Kunststoffknöpfe. Hier sind verschiedenste Kombinationen, zum Beispiel mit Holz oder Kunststoff, möglich. Knöpfe werden an Klein- und Badmöbeln, aber auch für kleine Frontelemente oder in Kombination mit größeren Griffen in allen Bereichen eingesetzt.

Handles and Knobs

Our product group of plastic knobs are available in a variety of combinations of wood and plastic and are particularly versatile. They are used on hall furniture, bathroom furniture, and small front elements or can be combined with larger handles in all areas of application.

Entwicklungspartner und Systemlieferant

Development partner and system supplier

Gern unterstützen wir Sie dabei, Vorsprünge auszubauen und zu festigen. Unser eingespieltes Team aus Designern, Entwicklern und Konstrukteuren setzt Produktideen vorgabengerecht und bei Bedarf in kürzester Zeit in überzeugende Lösungen um. Der hauseigene Werkzeugbau sowie unsere Partner aus der Fennel Systems Gruppe produzieren Hochleistungswerkzeuge für die Serienproduktion im Bereich Kunststoffspritzguss, Kunststoffextrusion und Zinkdruckguss. Unsere vielfältigen Möglichkei-

ten in der Oberflächentechnik und der Konfektion sorgen für perfekte Optik und einbaufertige Produkte. Zählen Sie mit führenden Herstellern aus der Möbelindustrie auf die Vorzüge von Fennel:

Umfassende Beratung

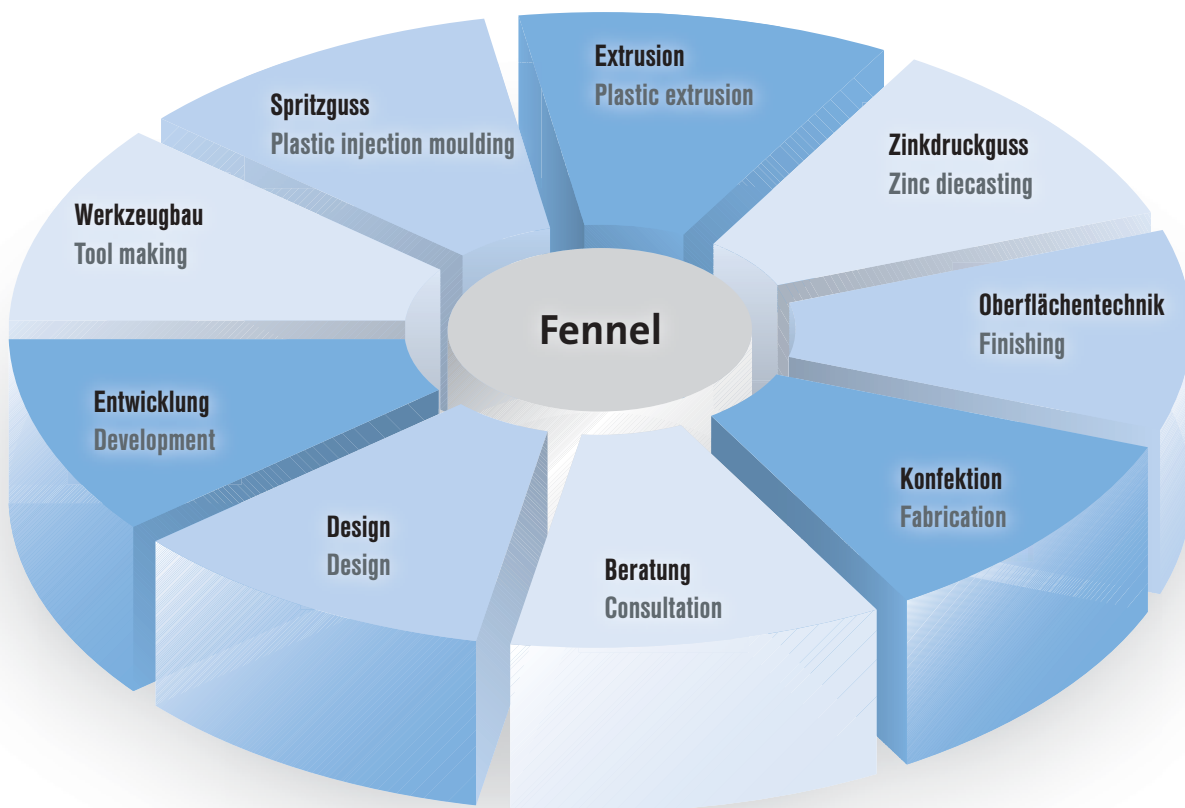

Wer mit Fennel am Puls der Zeit produziert, hat Bedarf an innovativen Entwicklungen. Beschreiben Sie uns Ihr Anliegen und wir finden eine Lösung.

Kreativität und Weitsicht

Herausforderungen spornen zu Höchstleistungen an. Bei Material, Verarbeitung, Formgebung und Design. Immer wieder inspirierend. Immer wieder verblüffend neu.

Spitzenleistung in der Umsetzung

Qualität ist gefragt. Langjährige Erfahrung, eine solide Umsetzung und ausführliche Praxistests begleiten Fennel Produkte kontinuierlich bis zur Serienproduktion.

We would be glad to help you to get ahead and to stay there. Our skilled team of designers, developers and constructors turn product ideas into solutions as required and according to your guidelines in the shortest possible time. Our in-house toolmakers and our partners from the Fennel Systems group produce high-performance tools for volume production in the fields of injection moulding, plastics extrusion and zinc diecasting. Our wide variety of options in surface processing and assembly provide that perfect look and products that are ready for installation at once.

Together with leading makers from the furniture industry, you can count on the advantages of Fennel:

Comprehensive consulting

If you are like Fennel and have your finger on the pulse of the moment, then you have a need for innovative developments. Describe what you want and we will find a solution for you.

Creativity and a broad view

Challenges inspire us to even greater heights of achievement. Regarding materials, workmanship, shape and design. Always inspiring. Always surprisingly fresh and new.

Top performance in implementation

Quality is in demand. Fennel products continuously incorporate many years of experience, solid implementation and stringent tests, all the way up to volume production.

Vorsprung durch Innovation Leading by innovation

Heute schon in den Märkten der Zukunft denken. Gute Produkte noch besser machen. Und niemals die Wünsche unserer Kunden aus den Augen verlieren. So arbeiten wir bei Fennel seit über 3 Jahrzehnten. Im Ergebnis stehen mehr als 3.500 Artikel in mehr als 100.000 Ausführungen. Systeme, Module und Produkte, die das Geschäft unserer Kunden voranbringen. Durch ausgereifte Technik, erstklassige Funktion, vielfältiges Material und wegweisendes Design. Gern gehen wir diesen Weg mit Ihnen gemeinsam. Rufen Sie uns an.

Thinking today about the markets of tomorrow. Making good products even better. And never losing sight of our customers. This has been the working philosophy at Fennel for more than 3 decades. The result is more than 3.500 products in more than 100.000 versions. Systems, modules and products that keep our customers' business moving ahead. Thanks to mature technology, first class functionality, a wide range of materials and pioneering design.

We look forward to travelling this route with you. Please call us.

Weitere Möglichkeiten der Möbelgestaltung entnehmen Sie unseren Spezialkatalogen sowie unserer umfangreichen und ständig aktualisierten Ausstellung. Wir freuen uns auf Ihren Besuch.

You will find more design options in the catalogues for our other product areas. A visit to our large and constantly updated showroom is always an informative and interesting experience.
